CHINESE LIGHT INDUSTRY PRODUCING RUBBER PRODUCTS, CHEMICALS

RUBBER BOATS AND DIVING SUITS IN MUKDEN -- Hong Kong, Ta Kung Pao, 26 Jan 54

Mukden's light industry has tested and put into production several new products. These include: rubber boats, diving suits, rubber shoes, and acid-resistant clothing.

YUNG-LI CHEMICAL COMPANY IN NANKING -- Hong Kong, Ta Kung Pao, 26 Jan 54

During the first half of January 1954, the output of fertilizers, sulfuric acid, liquid ammonia, and other important products at the Public-Private Jointly Operated Yung-li Chemical Company's Nanking Plant exceeded production quotas. Consumption of pyrite per unit of output was the lowest in the history of the plant.

HSING-CH'UN DRUG FACTORY IN CANTON -- Hong Kong, Ta Kung Pao, 23 Jan 54

Recently, the Kuang-fu-hsing Import-Export Company combined its capital with the Sheng-li Drug Company and the Yung-li Drug Company for investment in the Hsing-ch'un Drug Factory. After the three firms -- which have over 3 billion yuan in capital and 50 employees -- unite with the Hsing-ch'un Drug Factory, a large number of machines will be installed and two new buildings erected. Part of the new machinery has already arrived. Employees have begun to work on a two-shift basis instead of one.
